

## Delightful Lifestyle in a Top Lakeshore Setting

***Right on the Faaker See, with a box seat view of the Mittagskogel and Karawanken, the Karnerhof combines a restful family atmosphere with a sporty infrastructure, modern spa and refined gourmet cuisine.***

We refer to ourselves as a “Wellness & Enjoyment Hotel”, which gives you an excellent idea of what awaits you. The Melcher Family’s Hotel Karnerhof is a constant source of enthusiasm for guests in search of quiet and relaxation, as it is for active sports-loving vacationers and those with fine gourmet tastes. Families with children, too, find their own special place to unwind and recharge their batteries, either out on our some 100,000 m<sup>2</sup> of meadows and gardens, on the Mediterranean-like lakeshore or around the pool.

Guests who work up a good sweat in our spacious sauna facility, do so for good cause. In our Sanarium-Herbal Sauna, the Finnish Aquaviva Sauna or in the “Hot Sauna”, your body is truly able to cleanse itself of toxins and to regenerate. The chilling shudder of the ice fountain and immersing yourself in the lake water afterwards, is like champagne for the skin. And where better to stretch out and dream, than beneath the starry ceiling of the Turkish steam bath. For even more pampering, the exclusive SPA area awaits with attractive beauty treatments.

The creations conjured up for his guests by our head chef, Thomas Guggenberger, are not only a feast for the eyes, they are also a small fireworks display of flavour. Inspired by our Mediterranean neighbours, yet reflecting the unmistakable art of Austrian cooking, this internationally acclaimed chef (awarded “Two Chefs’ Hats”), along with certified sommelier, Martin Heigl, and our maitre d’ and likewise certified sommelier, Franz Egger, turn every meal into a veritable declaration of love. The perfect moment for romantic moments, perhaps out on the Lake Terrace or in our cosy Götzlstube à la carte restaurant.

Running, swimming, cycling – In the countryside surrounding the Faaker See, the warmest swimming lake in all of Carinthia, fans of outdoor sports will find countless opportunities. Embarking on a cross-border Alpine-Adriatic Hike, you will actually be able to discover an array of natural and cultural treasures in three different countries. Yet the sporting discipline which stands out above all others is, without question, golf. 12 golf courses, with as many as 27 holes, are within 10 to 45 minutes’ reach of here. The hotel owner, Hans Melcher – an avid golfer in his own right – offers golf-loving guests – be they beginners or pros – custom-tailored golf packages.
