

Witches, Herbs and a Gourmet Chef

A rich variety of herbs grow in the enormous herb garden of the Karnerhof on the shores of the Faaker See: destined for refined gourmet meals conjured up by our award-winning kitchens and for soothing treatments in our exclusive SPA facility.

Though the mascot of the Hotel Karnerhof's herb garden is our little Herb Witch, "Lili", the man with a real magic touch sports a wooden spoon and "Two Chef's Hats" from Gault Millau: Thomas Guggenberger has been successfully working for years with aromas and stimulating herbs, harvested dewily-fresh from his lovingly tended garden.

Aside from exciting the restaurant testers of Gault Millau, the dishes which chef-de-cuisine Guggenberger serves to his guests are also incredibly healthy. The essential oils and phyto-therapeutic agents in the herbs gently promote a personal sense of wellbeing – presented in the form of light, aromatic herbal cuisine. And as an added extra, guests get to enjoy special treatments in the SPA facility of our 4-Star-Superior establishment – also incorporating, of course, our herbs and exceptional lake views.

Glorious Moments for your Body 24.08.-07.09.2008

3 sensuous feel-good days including half board and the Karnerhof's gourmet cuisine, pampering services, stylish relaxation in our SPA facility, along with nurturing beauty treatments incl. a manicure, a full-body massage, a stimulating Seraglio Bath and a body pack administered on the floating Thermo-Spa bed with aromatic fragrances.

3 days incl. HB per person from € 493.
